UCZ

Chip Type, High Reliability. Low temperature ESR specification.

UCX

- Chip type, high temperature range, for +125°C use.
- Added ESR specification after the test at -40°C.
- Applicable to automatic mounting machine fed with carrier tape.

• Compliant to the RoHS directive (2011/65/EU).

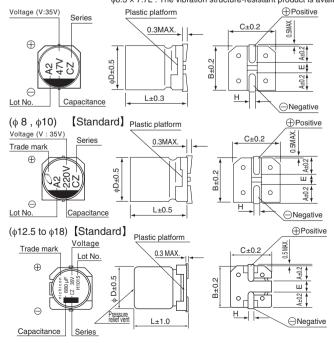

■ Specifications

Item	Performance Characteristics											
Category Temperature Range	-40 to +125°C											
Rated Voltage Range	10 to 100V											
Rated Capacitance Range	10 to 3300μF											
Capacitance Tolerance	± 20% at 120Hz, 20°C											
Leakage Current	After 2 minutes' application of rated voltage at 20°C, leakage current is not more than 0.01CV or 3µA, whichever is greater.											
	Measurement frequency : 120Hz at 20°C											
T	Rated voltage (V) 10 16 25 35 50 63 80 100											
Tangent of loss angle (tan δ)	tan δ (MAX.) 0.30 0.23 0.18 0.16 0.16 0.12 0.12 0.10											
	For capacitance of more than 1000μF, add 0.02 for every increase of 1000μF.											
	Rated voltage (V) 10 16 25 35 50 63 80 100 Measurement frequency:											
Stability at Low Temperature	Impedance ratio ZT / Z20 (MAX.) Z-40°C / Z+20°C 12 8 6 4 4 3 3 3 3											
	After continuous application of rated voltage at 125°C and then restoring down to 20°C, the readings of measurements shall meet below											
	Case size											
Endurance	Endurance time 1000hrs. 2000hrs. 3000hrs. 4000hrs.											
Endurance	Capacitance change Within ±30% of the initial capacitance value											
	tan δ 300% or less than the initial specified value											
	Leakage current Less than or equal to the initial specified value											
Shelf Life	After storing the capacitors under no load at 125°C for 1000 hours and then performing voltage treatment based on JIS C 5° clause 4.1 at 20°C, they shall meet the specified values for the endurance characteristics listed above.											
5	The capacitors are kept on a hot plate for 30 seconds,											
Resistance to soldering	which is maintained at 250°C. The capacitors shall meet											
heat	the characteristic requirements listed at right when they are removed from the plate and restored to 20°C. Leakage current Less than or equal to the initial specified value											
Marking	Black print on the case top.
